WHY CAU

01 Mental Health and Student Life Support

- Dedicated psychological counseling services for international students with limited Korean proficiency
- Operation of the Global Community Center
- Administrative support for immigration-related services

02 Employment & Career Support

- Employment seminars and career information sessions
- Support programs for employment in Korea and academic guidance after graduation

05 Operation of International Exchange Programs

- Experience studying abroad as an exchange student for one or two semesters at any of our 700+ partner universities worldwide.

06 Cultural Adaptation Program

- Offering essential guidance on living in Korea
- Cultural activities and networking events
- Offering opportunities for interaction with Korean students

7 Reasons to Choose Chung-Ang University

03 Support Program for International Students in Their Major Studies

- Academic support for international students through dedicated professors, researchers, teaching assistants, and senior students in each department
- Operation of a structured mentoring program

04 Scholarship Program for Outstanding International Student Leaders

- Outstanding international students with experience at Chung-Ang University are selected as student supporters
- They provide reliable assistance with admissions counseling, academics, and daily life inquiries

07 Creative DNA Leading K-Culture

- Recognized for global competitiveness, including the first Korean recipient of the Pulitzer Prize
- Chung-Ang University artists have received awards at prestigious international film festivals, including Cannes and Moscow
- The cradle of the K-Wave, producing Korea's leading directors, producers, and actors

CAU Global Academic Units

academic programs tailored specifically for international students!

Department of Advertising and Public Relations

Korean Language Education and Korean Culture Major

Global Advertising and PR Major

Through a curriculum that reflects international students' interests and global trends, students can develop into experts in advertising/PR and global marketing.

- Practical and trendy courses reflecting diverse cultural characteristics, including Global Advertising Creativity, Global Marketing Communication, Global Branding Strategy, and Digital Media Strategy
- Enhanced practical skills through learning various global marketing case studies

Department of Korean Language and Literature

Korean Language Education and Korean Culture Major

Global Leaders in the Era of the Korean Wave!

Students systematically learn about Korean language education and Korean culture to grow into global experts in Korean education and culture needed in the era of the Korean Wave (Hallyu).

- Customized curriculum exclusively for international students
- Korean language teacher certification available upon completion of the major

Department of Game Convergence

Training leaders in the game industry!

English Track (100% English-Instructed Classes)

The Department aims to foster professionals equipped with advanced competencies in game planning and development based on cutting-edge technologies such as AI and VR/AR. Students are trained to develop into project managers (PMs) and executives who can play leading roles in the global game industry.

- Nurturing creative talent through industry-academia cooperation programs with global game companies and problem-based learning (PBL).
- Developing future leaders of the game industry through education in AI and VR/AR technologies, combined with game company internships and entrepreneurship training.

Introduction of a New Admission Unit for 2027 International Student Admission

School of Integrative Engineering

Nano Materials Engineering

Biomedical Engineering

The School of Integrative Engineering fosters leaders who will shape the future of convergence science and technology.

Nano Materials Engineering

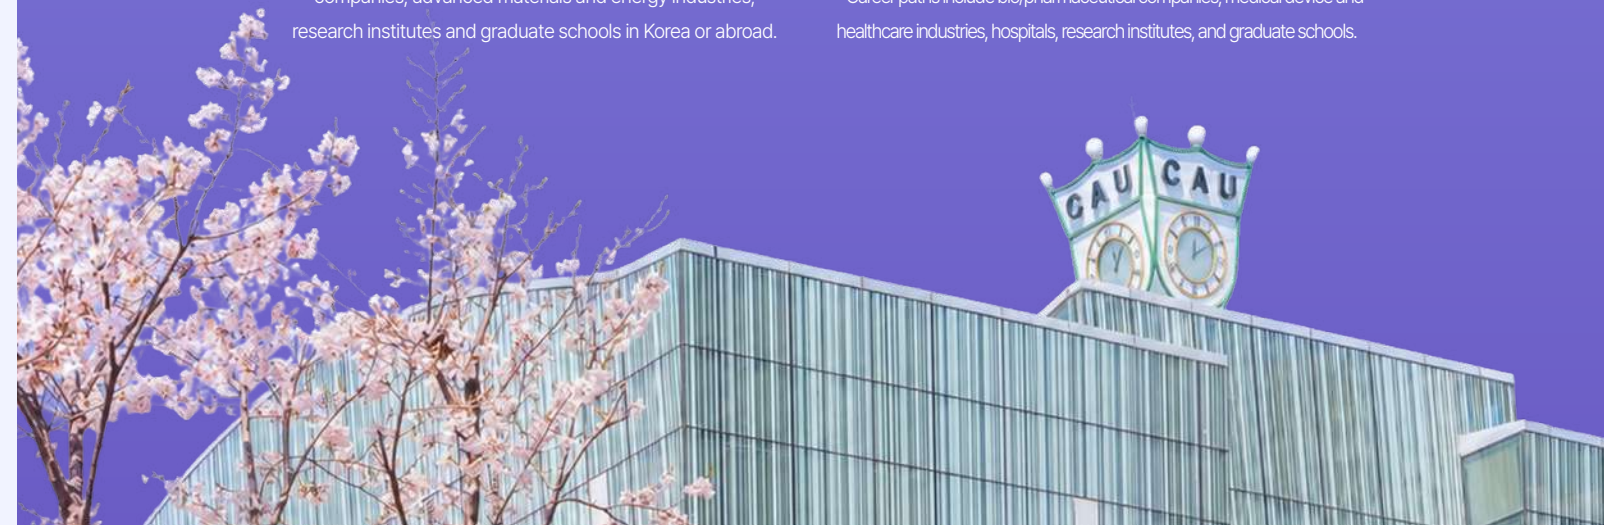

Students learn nano-materials technologies at the core of the semiconductor, display, energy industries, and develop into professionals who will lead future advanced industries.

Biomedical Engineering

By integrating life sciences and engineering, the program cultivates specialists who will lead the fields of medical devices, biomaterials, and digital healthcare.

- The program cultivates specialists through foundational coursework and practical training designed for immediate adaptation to companies and research institutes.
- Career paths include semiconductor and display companies, advanced materials and energy industries, research institutes and graduate schools in Korea or abroad.

- By building knowledge in the biological and medical fields on a foundation of engineering, the program cultivates highly qualified professionals who can pursue careers not only in traditional engineering fields but also in the pharmaceutical and healthcare industries.
- Career paths include bio/pharmaceutical companies, medical device and healthcare industries, hospitals, research institutes, and graduate schools.
